

Image production:

The ideal digital print would be on matt paper 150-190 gr. The finishing would be matt or anti-reflex encapsulating film, such as Polycrystal 125 microns, to avoid reflections when looking at the panel. The film on the back should be opaque, such as a Pop-Up Blocking 250 microns, to avoid shadows being projected from the back.

SMART PopUp	Straight	Curved
Front panel	750 mm	696 mm
Corner panel	670 mm	670 mm
Panel height	2300 mm	2300 mm
Image suitcase	800 mm (h)x1800 mm (w) + 20mm (flap area)	

Volume:
